

BRUSHING KIT

The Brushing kit allows for the expansion of a flap without the need for an incision. The principle involves disrupting the collagen fibers of the fibrous periosteum. This reduces the rigidity of the flap, enabling it to be released further.

- 1 REGULAR BRUSH
- 2 ANGULATED RIGHT BRUSH
- 3 ANGULATED LEFT BRUSH
- 4 MEDIUM BRUSH
- 5 LARGE BRUSH
- 6 INOX BOX
